

Foundation Website Creation with CSS,XHTML, and JavaScript: Design with CSS, XHTML, and AJAX

Filesize: 2.77 MB

Reviews

*Thorough manual! Its this kind of excellent study. It really is written in straightforward terms and never difficult to understand. I am very happy to inform you that this is basically the very best pdf we have read through during my individual existence and could be the greatest ebook for possibly.
(Dr. Arno Sauer Sr.)*

FOUNDATION WEBSITE CREATION WITH CSS,XHTML,AND JAVASCRIPT: DESIGN WITH CSS, XHTML, AND AJAX

APress. Paperback. Book Condition: new. BRAND NEW, Foundation Website Creation with CSS,XHTML, and JavaScript: Design with CSS, XHTML, and AJAX, Jonathan Lane, Steve Smith, Lynn Kyle, Joe Lewis, Foundation Website Creation with CSS, XHTML, and JavaScript covers the entire process of building a website. This process involves much more than just technical knowledge, and this book provides you with all the information you'll need to understand the concepts behind designing and developing for the Web, as well as the best means to deliver professional, best-practice-based results. There is far more to building a successful website than knowing a little Hypertext Markup Language (HTML). The process starts long before any coding takes place, and this book introduces you to the agile development process, explaining why this method makes so much sense for web projects and how best to implement it. Planning is vital, so you'll also learn how to use techniques such as brainstorming, wireframes, mockups, and prototypes to get your project off to the best possible start and help ensure smooth progress as it develops. An understanding of correct, semantic markup is essential to any web professional, so this book explains how XHTML should be used to structure content so that the markup adheres to current web standards. You'll learn about the wide range of HTML elements available to you, and you'll learn how and when to use them through building example web pages. Without creative use of Cascading Style Sheets (CSS), websites would all look largely the same. CSS gives you the ability to set your website apart from the rest while maintaining the integrity of your markup. You'll learn how CSS works and how to apply styles to your pages, enabling you to realize your design ideas in the browser. JavaScript can be used to make your website easier...
