Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 edition. Excerpt: . station No. 2. The power that will thereby be made available for delivery as electric energy will vary with the flow of the canal up to a maximum of 10,000 horsepower at the first and about 17,500 horsepower at the second station. Whatever of this power may be required in connection with the pumping of water to the Yuma mesa and for canal operation or drainage pumps in both the Yuma and Imperial Valleys, should be held available for these purposes. The remainder should be marketed for the joint advantage of the Yuma project and the Imperial Irrigation District, provided, of course, that the Yuma project, or the United States for this project, has contributed to the cost of the power installations. In any event under joint development the power required by the Yuma project and by the Imperial Irrigation District should be paid for at cost plus a reasonable percentage, preferably 10 per cent, and the determination of cost should be made by the Secretary of the Interior. The apportionment of cost and the division of profits should be made substantially as set forth in this report. This board approves the general intent of the agreement already entered into between the United States and the Imperial Irrigation District (see Appendix, p. 67), under which both cost of construction of power plants and the resulting benefits are to be shared and under which there will be reserved to the Yuma project, upon suitable...
