

Organizing for Learning: Classroom Techniques to Help Students Interact Within Small Groups (Paperback)

By Deana Senn, Dr Robert J Marzano, Gwendolyn L Bryant

Learning Sciences International, United States, 2015.
Paperback. Book Condition: New. 255 x 180 mm. Language: English . Brand New Book. Can your students actively process content in groups? Academic standards call for increased rigor, but simply raising complexity is not enough. Students need to be able to interact productively within a small-group setting. As teachers become better at planning and providing practice sessions that build these skills, students become more adept at participating in structured grouping, peer response groups, paired practice, partner discussions, and reflecting on learning as part of a group. *Organizing for Learning: Classroom Techniques to Help Students Interact Within Small Groups* explores explicit techniques for mastering this crucial strategy of instructional practice. It includes: Explicit steps for implementation Recommendations for monitoring students ability to process content in groups Adaptations for students who struggle, have special needs, or excel in learning Examples and nonexamples from classroom practice Common mistakes and ways to avoid them The *Essentials for Achieving Rigor* series of instructional guides helps educators become highly skilled at implementing, monitoring, and adapting instruction. Put it to practical use immediately, adopting day-to-day examples as models for application in your own classroom.

Reviews

This book is worth getting. Yes, it really is enjoy, continue to an amazing and interesting literature. You can expect to like how the author publish this book.

-- Prof. Cindy Paucek I

These kinds of book is every thing and helped me hunting forward plus more. It is probably the most remarkable book we have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Everett Stanton
