Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Sixteen-year-old Sulan Hom can't remember life before the Default -- the day the United States government declared bankruptcy. As a math prodigy, she leads a protected life, kept safe from the hunger and crime plaguing the streets of America. She attends the corporate-sponsored Virtual High School, an academy in Vex (Virtual Experience) for gifted children. Beyond the security of Sulan's high-tech world, the Anti-American League wages a guerrilla war against the United States. Their leader, Imugi, is dedicated to undermining the nation's reconstruction attempts. He attacks anything considered a national resource, including corporations, food storage facilities -- and schools. When Sulan witnesses the public execution of a teenage student and the bombing of a college dorm, she panics. Her mother, a retired mercenary, refuses to teach her how to defend herself. Sulan takes matters into her own hands. With the help of her hacker best friend, Hank, Sulan acquires Touch -- an illegal Vex technology that allows her to share the physical experience of her avatar. With Touch, Sulan defies her mother and trains herself to fight. When Imugi unleashes a new attack on the United States, Sulan finds herself caught in his net. Will her Vex training be enough to help her survive and escape? This is a young adult dystopia/cyberpunk novel.
