You may be writing and selling your books through independent eBook websites, but that business is slowing down. I have found ways of selling these ebooks, paperbacks, hard cover books and software through offline sales channels. This book shows you how to create the offline sales distribution channels to recover more sales and make a few extra dollars. It shows you how to configure a website to broaden your sales experience and it shows you how to drive traffic to your web site without the time consuming task of schmoozing on sites like Facebook or Twitter. I dont have time for idle surfing and neither do you. This book closes the gap between having to deal with social sites and online mass distributors. You can sell more books and get paid directly in advance of the sale, even if the book is an ebook. For paperbacks and hard covers, there is no packaging or shipping involved. You are free to write and write while PayPal deposits your sales directly into your bank account. And best of all, you know who bought your book. Robert Stetson is a former BASF Systems Manager of Technical Marketing and Computer Systems Design Engineer. He has published over 30 books on a variety of topics. His website, RobStetson. com, offers a prefabricated book selling website for sale inexpensively. This is a must read for those who want to boost their income. This item ships from La Vergne, TN. Paperback.
