Reviews

Good electronic book and useful one. It usually does not expense a lot of. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Annette Boyle)

FUTURE WITHOUT WAR. THEORY OF GLOBAL HEALING

BoD. Paperback. Book Condition: New. Paperback. 124 pages. Dimensions: 8.3in. x 5.2in. x 0.5in. Is there a foreseeable future on Earth free of war? Will the rivers flow in their natural beds again; will animals be freed from their cages for ever; and will all the children of this world have enough to eat and a sense of belonging? In the face of the violence which is daily inflicted on this planet upon human beings, animals and nature these questions seem absurd, have almost beyond human reason. Nevertheless, they are the crucial questions of our time and from the answers we find to them our future and the further evolution of life on Earth depends. Under the direction of Dieter Duhm, born 1942 in Berlin, sociologist, psychoanalyst, former Marxist and one of the leading heads of the 68-Student Movement in Germany a group of European researchers is working in this field. For 28 years these questions are the main focus of their research. They have developed a planetary idea, whose realization could create a fundamental shift in the direction of peace on Earth. In his book *Future Without War* Dieter Duhm outlines this global peace strategy. It is based on the idea of modern natural science that the building component of matter is not the atom, instead it is energy, frequency, information. Earth with its atmosphere and magnetic field, with its waters and landscapes, its creatures, biotopes and human societies is an integral, oscillating and living body that can be healed, just as a human body can be healed if the appropriate medicine, i. e. the appropriate information is administered. The healing information is wanted most at the points where new wars are created daily: in the cohabitation of human beings. In this area far reaching change is necessary. Words and...
